- The \$11.1 million **Small Business Cyber Resilience Service**, delivered by IDCARE, provides one-on-one support for small businesses to prevent and bounce back from a cyber attack.
 - The Service, which launched in October 2024, helps small businesses by recommending specific actions, tools and guidance to improve cyber security, providing practical steps to recover from a cyber incident, providing case management support following an incident and referring small businesses to additional support services.
 - As at 31 December 2024, more than 200 small businesses have accessed this service.

Small Business Cyber Security and Digital Supports

FOI 4411
Document 2

KEY MESSAGE

- Digital technology is key to a stronger, productive and resilient economy. Since 2023, the Albanese Government has invested more than \$80 million to help small businesses uplift their cyber security and digital capabilities through the **Digital Solutions** program, **Cyber Wardens** program, **Small Business Cyber Resilience Service** and the **cyber health check**.

KEY FACTS AND FIGURES

- **Small Business Cyber Resilience Service**
- The \$11.1 million Small Business Cyber Resilience Service provides free, one-on-one support to help prevent and recover from cyber-attacks.
 - As at 30 September 2025, the program has handled more than 1,700 engagements.

Small Business Cyber Security and Digital Supports

- **Small Business Cyber Resilience Service**
- In the 2023-24 MYEFO, the Government provided funding over 4 years to establish the Small Business Cyber Resilience Service (the Service).
- The Service is a measure under the *2023-2030 Australian Cyber Security Strategy* (Cyber Security Strategy).
- The Service helps small businesses by:
 - recommending specific actions, tools and guidance to improve cyber security
 - providing practical steps to recover from a cyber incident
 - providing case management support following an incident
 - referring to additional support services where required.
- IDCARE delivers the Service, which commenced on 21 October 2024.

Subject: Government Points in relation to Ghost store' Isla & James uses Bondi tragedy to spruik products article

Hi S 22

I'm acting for S 22 while he's on leave and he mentioned before he left your catch up with him on Wednesday and discussion of "ghost store" scams e.g. '[Ghost store' Isla & James uses Bondi tragedy to spruik products](#)'.

With input from our colleagues in Markets Group we have put together a Q&A:

What is the Government doing to address 'ghost store' websites that falsely claim to be local businesses?

s 22

- The Government also assists small businesses to recover from cyber incidents through the Small Business Cyber Resilience Service provided by IDCARE. The Service helps small businesses by:
 - Recommending specific actions, tools and guidance to improve cyber security
 - Providing practical steps to recover from a cyber incident
 - Providing case management support following an incident
 - Referring to additional support services where required
 - IDCARE delivers the Service, which commenced on 21 October 2024
 - As at 30 September 2025, the program has handled more than 1,700 engagements
